Office Action Summary	Application No. 10/087,954	Applicant(s) BANERJEE ET AL.	
	Examiner Jocelyn Greimel	Art Unit 3693	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

DETAILED ACTION

This communication is in response to Applicant's Amendments and Remarks filed 06 July 2007 and the interview of 20 July 2007. This communication is being re-sent as there was an error in the previous action and will restart the Applicant's response period.

Status of Claims

Claims 1-41 are currently pending. Claims 1-4, 8, 16, 25-26 and 32-41 are currently amended. Claims 1, 25 and 32 are independent claims.

Response to Arguments

Applicant's arguments with respect to claims 1-41 have been considered but are moot in view of the new ground(s) of rejection.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claim 4 recites the limitation "the availability list". There is insufficient antecedent basis for this limitation in the claim. The claim has been evaluated as best understood by the Examiner and appropriate correction is required.

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. **Claims 1-41 are rejected under 35 U.S.C. 102(b) as being anticipated by Dalzell et al (US Patent Pub. No. 2003/0204447, hereinafter Dalzell).** In reference to claims 1, 25 and 32, discloses a method, system and apparatus for a bartering system including:

- a. receiving a needs list having at least one needed item a user desires to acquire; receiving a priority indication for the at least one needed item, wherein the priority indication indicates a level of desire the user has in acquiring the at least one needed item and wherein the priority indication indicates items that are equivalent to the at least one needed item;
- b. constructing the needs list with the priority indication into a barter protocol language; and
- c. searching available items for a match with each of the at least one needed item based upon the priority indication wherein an item having a lower priority indication is matched as being equivalent to the at least one needed item only if

Art Unit: 3693

an item having a higher priority is not found (0009-0010; 0013-0017; 0025-0026; 0093-0094; 0158-0160).

3. In reference to claims 2-24, 26-31 and 33-41, Dalzell disclose a method and system wherein the bartering protocol language specifies a range of near equivalency associated with a plurality of dissimilar item to form near equivalent items, wherein the near equivalent item are items that are dissimilar to the at least one needed item, and wherein the priority indication indicates whether a near equivalent item will be satisfactory to the user in lieu of the at least one needed item (0158-0160).

4. wherein searching available items is performed first within a same bartering system and performed second across a different bartering system if no match is found during the search within the first bartering system (0175).

5. wherein the first bartering system associated with a first barter protocol language and wherein the different bartering system associated with the second barter protocol language and further comprising; translating, before the searching is performed across the different bartering system, the needs list from the first barter protocol language to a common barter protocol language, wherein the common protocol language comprises a representation of the needs list and the availability list that is common to both the first bartering system and the different bartering system (0178-0180).

Art Unit: 3693

6. wherein the needs list further comprises a range of near equivalent items with each near equivalent item having an associated priority indication indicating a user's desire to accept a given near equivalent item in lieu of a given needed item if a match for the given needed item is not found (0158-0160).

7. wherein the match is a direct match having a one to one correspondence (abstract; 0178-0180).

8. wherein the match is a chained association involving the needs list and availability lists of a plurality of users (0009-0010; 0046-0053).

9. wherein the first bartering system associated with a first barter protocol language and the different bartering system associated with a second barter protocol language and further comprising translating before the searching is performed across the different bartering system, the needs list from the first barter protocol language to the second barter protocol language (0178-0180).

10. further comprising receiving a second priority indication for a given available item indicating a user's desire to use the given available item to carry out a bartering transaction (0158-0160).

Art Unit: 3693

11. wherein the second priority indication is indicated by a monetary value that the user is willing to accept for the given available item (0158-0160; figure 3A).
12. further comprising receiving a monetary value associated with each of the at least one needed item (0158-0160; figure 3A).
13. further comprising receiving a monetary value priority indication, associated with the received monetary value, wherein the monetary value priority indication indicates a user's willingness to vary a payment value for a given needed item from the monetary value (0158-0160; figure 3A).
14. further comprising receiving a monetary value priority indication, associated with the received monetary value, wherein the monetary value priority indication indicates a user's willingness to vary a received value for a given available item from the monetary value (0158-0160; figure 3A).
15. wherein the monetary value is received from data provided by a rating agency (0013-0017).
16. wherein receiving a priority indication for a group of two or more items (0158-0160).

17. wherein the barter protocol language is in XML (0053; 0175).
18. wherein each of the at least one needed item can be at least one of a physical item and a nonphysical item or service (0050-0052).
19. wherein each physical item and each nonphysical item has a corresponding representation mechanism within the barter protocol language (0050-0052).
20. further comprising indicating equivalency of at least one available item with at least one needed item (0158-0160; figure 3A).
21. further comprising finding a match for at least one given available item in consideration for a found match for at least one given needed item, wherein the at least one available item, and the at least one needed item are represented in terms of equivalency (0158-0160; figure 3A).

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within

Art Unit: 3693

TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
